

SECTION 2 PHYSICAL GEOGRAPHY

GeoActivity

Use with Physical & Human Geography, Section 2.4, in your textbook.

Go to Interactive Whiteboard GeoActivities at myNGconnect.com to complete this activity online.

2.4 NATURAL RESOURCES

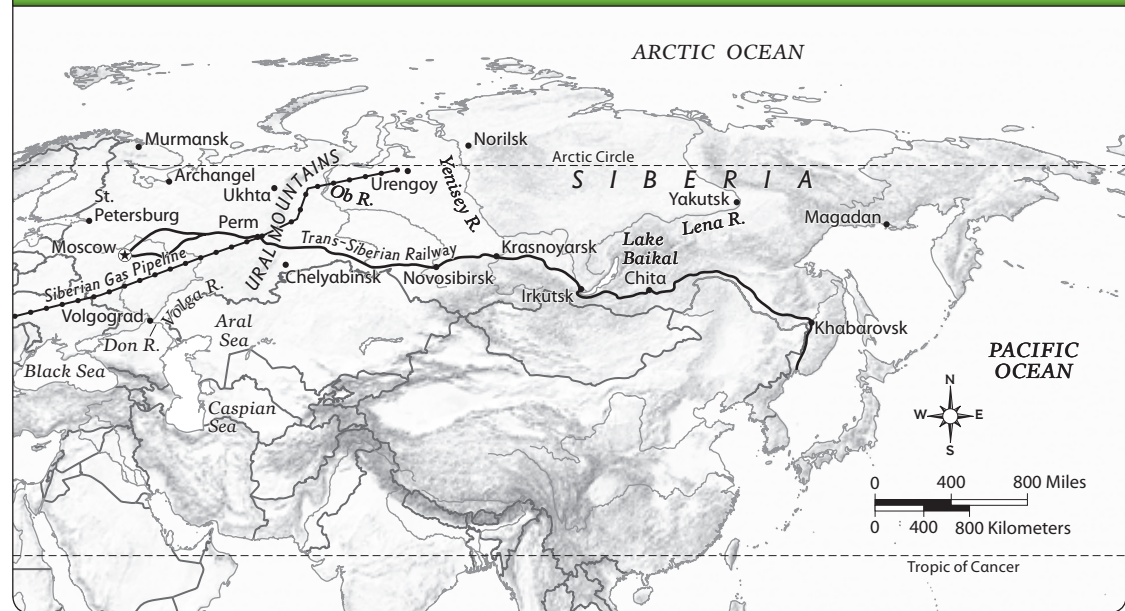

Create a Natural Resource Map

Russia is rich in natural resources. Study the chart to learn more about two of Russia's main resources and where they are located. Then use the information to plot Russia's natural resources on the map and answer the questions.

RESOURCE	LOCATIONS
Aluminum <ul style="list-style-type: none"> • Transportation • Packaging • Construction 	<ul style="list-style-type: none"> • North of Volgograd • North and east of Krasnoyarsk • South of Perm • East of Novosibirsk • East and west of St. Petersburg
Oil <ul style="list-style-type: none"> • Energy • Consumer products 	<ul style="list-style-type: none"> • North, south and east of Ukhta • South of Volgograd • South of Perm • South of Urengoy

- Create Maps** Make a resource map by placing the resources from the chart in the correct locations. Create a symbol for each resource.
- Interpret Maps** Where is the greatest variety of resources located?

RUSSIA'S NATURAL RESOURCES

- Make Inferences** Why might it be more difficult to take advantage of resources around Magadan and Yakutsk than those around Chita and Khabarovsk?
